1. The proposal comprises sustainable development in accordance with the NPPF and complies with the development plan. The Local Planning Authority has worked in a positive and proactive manner to issue the decision without delay.

Informative

1. Attention is drawn to the following information from the Local Authority. It is relevant to all proposals involving new build development. The proposed development lies within a coal mining area. In the circumstances when carrying out of their proposals applicants should take account of any coal mining hazards relating to stability, health and safety or adverse environmental impacts.

This includes considering the potential for existing property and new development to be affected by mine gas. Such hazards may currently exist, be caused as a result of the proposed development, or occur at some time in the future.

Developers must also seek permission from the Coal Authority before undertaking any operations that involve entry into any coal seams, coal mine workings or coal mine entries (shafts and adits) and the implementation of site investigations or other works. Failure to obtain such authority is trespass with the potential for court action. Developers must obtain property specific summary information from the Coal Authority on any past, current and proposed surface and underground coal mining activity and other ground stability information that could affect the development. Further information can be found at

www.coal.gov.uk/services/planning/index.cfm.

The Coal Authority's Property Search Service can be contacted on 0845 762 6848 or at www.groundstability.com.

2. You are advised that this development may be subject to the requirements of the Building Regulations 2000. In this case you will need to meet the specific requirements of Approved Document M (2004 Edition) "Access to and use of buildings".

The Building Regulations application must include an Access Statement showing your commitment to inclusive design at an early stage.

For further design guidance refer to British Standard 8300:2001 "Design of buildings and their approaches to meet the needs of disabled people".

You are also advised that the Disability Discrimination Act 1995 requires service providers to take reasonable steps to overcome any physical barriers which continue to make their services impossible or unreasonably difficult for disabled people to use. For further information on this please contact the Disability Rights Commission at: www.drc-gb.org

3. The applicant is advised that the grant of planning permission does not confer any right to carry out work(s) on, over or under land over which they do not have control, or have the landowners consent.
4. The proposed development lies within a coal mining area which may contain unrecorded coal mining related hazards. If any coal mining feature is encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848.

NOTES

1. If the applicant is aggrieved by the decision of the local planning authority to refuse permission or approval for the proposed development, or to grant permission or approval subject to conditions, he may appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990, the Town and Country Planning (Development Management Procedure) (England) Order 2010 and the Town and Country Planning Appeals (Written Representations Procedure) (England) Regulations 2009 within **6 months** of the date of this notice. (Appeals must be made on a form which is obtainable from the Planning Inspectorate, 3/03 Kite Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN). The Secretary of State has power to allow a longer period for the giving of a notice of appeal but he will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State is not required to entertain an appeal if it appears to him that permission for the proposed development could not have been granted by the local planning authority or could not have been so granted otherwise than subject to the conditions imposed by them, having regard to the statutory requirements (a), to the provisions of the development order, and to any directions given under the order. He does not in practice refuse to entertain appeals solely because the decision of the local planning authority was based on a direction given by him.
2. If permission to develop the land is refused or granted subject to conditions, whether by the local planning authority or by the Secretary of State, and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, he may serve on the Council of the district in which the land is situated a purchase notice requiring that council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
3. In certain circumstances, a claim may be made against the local planning authority for compensation, where permission is refused or granted subject to conditions by the Department for Communities and Local Government on appeal or on a reference of the application to him. The circumstances in which such compensation is payable are set out in section 114 of the Town and Country Planning Act 1990.
(a) The statutory requirements are those set out in section 78 of the Town and Country Planning Act 1990, namely sections 70, 71 and 72 of the Act.
